Biocultural Diversity Questionnaire / Holiadur ar Amrywiaeth Fio-ddiwylliannol

July 23, 2019 6:00 AM MDT

Q1 - Please select the answer which you think is closest to the correct figure:

Approximately how many member states of the United Nations are there in total?

| #	Field	Minimum	Maximum	Mean	Std Deviation	Variance	Count
1	Please select the answer which you think is closest to the correct figure: Approximately how many member states of the United Nations are there in total?	1.00	5.00	2.20	0.74	0.54	105

#	Field		Choice Count
1	100	11.43%	12
2	200	62.86%	66
3	650	21.90%	23
4	1000	1.90%	2
5	2000	1.90%	2
6	6500	0.00%	0
			105

Showing rows 1 - 7 of 7

Q2 - Please select the answer which you think is closest to the correct figure:

Approximately how many UNESCO world heritage sites are there in total?

| #	Field	Minimum	Maximum	Mean	Std Deviation	Variance	Count
1	Please select the answer which you think is closest to the correct figure: Approximately how many UNESCO world heritage sites are there in total?	1.00	6.00	3.54	1.37	1.86	104

#	Field		Choice Count
1	100	10.58%	11
2	200	9.62%	10
3	650	25.96%	27
4	1000	31.73%	33
5	2000	13.46%	14
6	6500	8.65%	9
			104

Showing rows 1 - 7 of 7

Q3 - Please select the answer which you think is closest to the correct figure:

Approximately how many extant species of mammal are currently known to science?

| #	Field	Minimum	Maximum	Mean	Std Deviation	Variance	Count
1	Please select the answer which you think is closest to the correct figure: Approximately how many extant species of mammal are currently known to science?	1.00	6.00	4.90	1.35	1.82	105

#	Field		Choice Count
1	100	2.86%	3
2	200	1.90%	2
3	650	15.24%	16
4	1000	10.48%	11
5	2000	20.95%	22
6	6500	48.57%	51
			105

Showing rows 1 - 7 of 7

Q4 - Please select the answer which you think is closest to the correct figure:

Approximately how many extant species of conifer are currently known to science?

| #	Field	Minimum	Maximum	Mean	Std Deviation	Variance	Count
1	Please select the answer which you think is closest to the correct figure: Approximately how many extant species of conifer are currently known to science?	1.00	6.00	2.90	1.33	1.78	105

#	Field		Choice Count
1	100	16.19%	17
2	200	24.76%	26
3	650	28.57%	30
4	1000	17.14%	18
5	2000	9.52%	10
6	6500	3.81%	4
			105

Showing rows 1 - 7 of 7

Q5 - Please select the answer which you think is closest to the correct figure:

Approximately how many extant human languages are currently known to science?

| #	Field	Minimum	Maximum	Mean	Std Deviation	Variance	Count
1	Please select the answer which you think is closest to the correct figure: Approximately how many extant human languages are currently known to science?	1.00	6.00	4.26	1.66	2.75	104

#	Field	Choice Count	
1	100	7.69%	8
2	200	11.54%	12
3	650	13.46%	14
4	1000	15.38%	16
5	2000	18.27%	19
6	6500	33.65%	35
			104

Showing rows 1 - 7 of 7

Q6 - Please select the answer which you think is closest to the correct figure:

Approximately how many extant species of amphibian are currently known to science?

| #	Field	Minimum	Maximum	Mean	Std Deviation	Variance	Count
1	Please select the answer which you think is closest to the correct figure: Approximately how many extant species of amphibian are currently known to science?	1.00	6.00	4.36	1.60	2.55	105

#	Field		Choice Count
1	100	5.71%	6
2	200	10.48%	11
3	650	16.19%	17
4	1000	11.43%	12
5	2000	21.90%	23
6	6500	34.29%	36
			105

Showing rows 1 - 7 of 7

Q7 - Please select the answer which you think is closest to the correct figure:

Approximately what percentage of World Heritage Sites are currently classified as in

danger according to UNESCO's World Heritage List?

| #	Field	Minimum	Maximum	Mean	Std Deviation	Variance	Count
1	Please select the answer which you think is closest to the correct figure: Approximately what percentage of World Heritage Sites are currently classified as in danger according to UNESCO's World Heritage List?	1.00	6.00	4.17	1.47	2.16	105

#	Field	Choice Count	
1	5%	3.81%	4
2	10%	10.48%	11
3	25%	20.00%	21
4	33%	22.86%	24
5	40%	16.19%	17
6	50%	26.67%	28
			105

Showing rows 1 - 7 of 7

Q8 - Please select the answer which you think is closest to the correct figure: Approximately what percentage of the world's mammal species are currently classified as threatened according to the IUCN Red List?

| #	Field	Minimum	Maximum	Mean	Std Deviation	Variance	Count
1	Please select the answer which you think is closest to the correct figure: Approximately what percentage of the world's mammal species are currently classified as threatened according to the IUCN Red List?	1.00	6.00	3.97	1.51	2.29	105

#	Field		Choice Count
1	5%	3.81%	4
2	10%	18.10%	19
3	25%	18.10%	19
4	33%	18.10%	19
5	40%	20.95%	22
6	50%	20.95%	22
			105

Showing rows 1 - 7 of 7

Q9 - Please select the answer which you think is closest to the correct figure:

Approximately what percentage of the world's conifer species are currently classified as

threatened according to the IUCN Red List?

| #	Field	Minimum	Maximum	Mean	Std Deviation	Variance	Count
1	Please select the answer which you think is closest to the correct figure: Approximately what percentage of the world's conifer species are currently classified as threatened according to the IUCN Red List?	1.00	6.00	3.53	1.42	2.02	105

#	Field		Choice Count
1	5%	7.62%	8
2	10%	17.14%	18
3	25%	28.57%	30
4	33%	17.14%	18
5	40%	20.00%	21
6	50%	9.52%	10
			105

Showing rows 1 - 7 of 7

Q10 - Please select the answer which you think is closest to the correct figure: Approximately what percentage of the world's languages are currently classified as in danger according to UNESCO's Atlas of the World's Languages in Danger?

| #	Field	Minimum	Maximum	Mean	Std Deviation	Variance	Count
1	Please select the answer which you think is closest to the correct figure: Approximately what percentage of the world's languages are currently classified as in danger according to UNESCO's Atlas of the World's Languages in Danger?	1.00	6.00	3.77	1.75	3.05	105

#	Field		Choice Count
1	5%	12.38%	13
2	10%	17.14%	18
3	25%	16.19%	17
4	33%	14.29%	15
5	40%	15.24%	16
6	50%	24.76%	26
			105

Showing rows 1 - 7 of 7

Q11 - Please select the answer which you think is closest to the correct figure:

Approximately what percentage of the world's amphibian species are currently classified

as threatened according to the IUCN Red List?

| #	Field	Minimum	Maximum	Mean	Std Deviation	Variance	Count
1	Please select the answer which you think is closest to the correct figure: Approximately what percentage of the world's amphibian species are currently classified as threatened according to the IUCN Red List?	1.00	6.00	3.89	1.46	2.12	105

#	Field	Choice Count	
1	5%	3.81%	4
2	10%	16.19%	17
3	25%	23.81%	25
4	33%	17.14%	18
5	40%	21.90%	23
6	50%	17.14%	18
			105

Showing rows 1 - 7 of 7

Q12 - Please select the answer which is closest to your personal opinion: How important is it to preserve sites which reflect the world's cultural diversity?

| #	Field	Minimum	Maximum	Mean	Std Deviation	Variance	Count
1	Please select the answer which is closest to your personal opinion: How important is it to preserve sites which reflect the world's cultural diversity?	1.00	3.00	1.19	0.44	0.19	104

#	Field		Choice Count
1	Extremely important	82.69%	86
2	Fairly important	15.38%	16
3	Not particularly important	1.92%	2
4	Not important at all	0.00%	0
			104

Showing rows 1 - 5 of 5

Q13 - Please select the answer which is closest to your personal opinion: How important is it to preserve the world's diversity of mammal species?

| #	Field	Minimum	Maximum	Mean	Std Deviation	Variance	Count
1	Please select the answer which is closest to your personal opinion: How important is it to preserve the world's diversity of mammal species?	1.00	3.00	1.12	0.36	0.13	105

#	Field		Choice Count
1	Extremely important	88.57%	93
2	Fairly important	10.48%	11
3	Not particularly important	0.95%	1
4	Not important at all	0.00%	0
			105

Showing rows 1 - 5 of 5

Q14 - Please select the answer which is closest to your personal opinion: How important is it to preserve the world's diversity of conifer species?

| #	Field	Minimum	Maximum	Mean	Std Deviation	Variance	Count
1	Please select the answer which is closest to your personal opinion: How important is it to preserve the world's diversity of conifer species?	1.00	4.00	1.36	0.60	0.36	105

#	Field		Choice Count
1	Extremely important	69.52%	73
2	Fairly important	25.71%	27
3	Not particularly important	3.81%	4
4	Not important at all	0.95%	1
			105

Showing rows 1 - 5 of 5

Q15 - Please select the answer which is closest to your personal opinion: How important is it to preserve the world's diversity of human languages?

| #	Field	Minimum	Maximum	Mean	Std Deviation	Variance	Count
1	Please select the answer which is closest to your personal opinion: How important is it to preserve the world's diversity of human languages?	1.00	3.00	1.27	0.57	0.33	105

#	Field		Choice Count
1	Extremely important	80.00%	84
2	Fairly important	13.33%	14
3	Not particularly important	6.67%	7
4	Not important at all	0.00%	0
			105

Showing rows 1 - 5 of 5

Q16 - Please select the answer which is closest to your personal opinion: How important

is it to preserve the world's diversity of amphibian species?

#	Field	Minimum	Maximum	Mean	Std Deviation	Variance	Count
1	Please select the answer which is closest to your personal opinion: How important is it to preserve the world's diversity of amphibian species?	1.00	3.00	1.26	0.48	0.23	105

#	Field		Choice Count
1	Extremely important	76.19%	80
2	Fairly important	21.90%	23
3	Not particularly important	1.90%	2
4	Not important at all	0.00%	0
